Profile

I am a creative multimedia designer with strong expertise in UI/UX design using Figma and implementation through Flutter. I build intuitive, user-centered interfaces with a focus on functionality and modern aesthetics. Skilled in 3D design and virtual reality development, I create immersive experiences using Blender and Unity. I focus on delivering impactful, interactive solutions that combine technology and design for engaging digital environments.

Education

Bachelor's Degree at Computer Science, Future University in Egypt Oct 2022 – Present

- Major: Digital Media
- GPA: 3.5/4.0

Work Experience

3D and VR Designer Intern July 2025 – Present

DEPI (Digital Egypt Pioneers Initiative), eYouth, MCIT, Egypt

- Designed and modeled 3D environments and interior layouts
- Created 3D characters and sculptures with attention to detail
- Enhanced freelance skills in 3D design and VR development
- Developed professional branding through CV, LinkedIn, and portfolio building

Flutter Intern July 2025 – Aug 2025

Rakict, Egypt

- Developed a cross-platform mobile application using Flutter and Dart.
- Integrated APIs for dynamic features and connected with Supabase for cloud services and database management.
- Gained hands-on experience in backend integration and scalable app design.

Financial & AI Intern July 2025 – July 2025

CIB Green Leap Program, Egypt

- Participated in a remote internship focused on innovation and sustainable development
- Applied sustainable finance principles and ESG strategies in real-world projects
- Utilized data-driven decision making to address Sustainable Development Goals (SDGs) and net-zero initiatives
- Explored applications of Artificial Intelligence (AI) in sustainable business practices

Entrepreneurial Skills Intern July 2023 – Aug 2023

Innovegypt, Egypt

- Participated in a startup ideation bootcamp and developed entrepreneurial thinking skills

Courses and Certificates

CCNA: Introduction to Networks – Cisco May 2025 – Dec 2024

- Gained a solid understanding of networking fundamentals, IP addressing, and routing

Adobe Photoshop – Udemy

Aug 2024 – Jul 2024

- Learned techniques for photo editing, retouching, and creating digital artwork

UI/UX Design – DeepDive

- Gained hands-on experience in UI/UX principles using Figma

Apr 2024 – Apr 2024

Image Processing with Python – DataCamp

- Explored computer vision fundamentals and processing techniques using OpenCV

Mar 2024 – Mar 2024

Adobe After Effects – Udemy

- Studied motion graphics and animation for multimedia projects

Jan 2024 – Feb 2024

Introduction to Python – 365 Data Science

- Built a solid foundation in Python programming and scripting

Nov 2023 – Dec 2023

Soft Skills and Language Skills

- | | |
|---|-------------------------------|
| • Communication & Presentation Skills | • Arabic: Native |
| • Problem-solving and analytical thinking | • English: Fluent |
| • Adaptability and continuous learning | • French: Intermediate |
| • Team collaboration and Multitasking | |

Technical Skills

Frontend

- HTML5/CSS3, JavaScript, Bootstrap, UI/UX, Responsive Design

Backend

- C#, LINQ, Entity Framework Core, SQL Server, ASP.NET Core MVC

Other

- Java, Python, Dart, Flutter, MySQL, VS Code, Google Colab, NetBeans
- SSMS, Microsoft Access, Lucidchart, ERDPlus
- Adobe Suite (Photoshop, Illustrator, After Effects, Animate), Figma, Canva
- Microsoft Office (Word, Excel, PowerPoint), Clipchamp
- 2D Animation (Animate, After Effects), 3D Animation (Blender)
- Unity (C#), CCNA Networking

Projects

• Vehicle License Plate Recognition, Future University

Description: Developed a system to detect and recognize vehicle license plates, classify them by color (private, truck, taxi), and extract numerical characters.

Tools: Image Processing, Python, OpenCV

• Catch the Falling Objects – Browser Game, Future University

Description: Created a 2D browser-based game with smooth animations, difficulty levels, and responsive controls.

Tools: HTML5 Canvas, JavaScript

Link: Google Drive Folder

• 7Days – Mobile App UI & Implementation, Future University

Description: Designed and implemented a mobile app UI for the college's restaurant to reduce wait times and improve order management.

Tools: Figma, Flutter

Link: Google Drive Folder

• Mathland – 2D Animation for Math Learning, Future University

Description: Produced a 2-minute animated film introducing kids to basic math operations through fun characters.

Tools: Adobe Animate

Link: Google Drive Folder

• Company Management System (MVC), Future University

Description: Built a web-based internal management system with CRUD operations, role-based access, and an intuitive UI.

Tools: Java, MVC Pattern, SQL

Achievements

- **2nd Place – MRC Robotics Competition (Dec 2024):** Designed and built an archery robot in a team-based challenge
- **Design Award – MRC Robotics Competition (Dec 2023):** Created a line-following robot with efficient navigation logic

Extracurricular Activities

Social Media Lead, IEEE FUE Student Branch

2025 – Present

- Created and managed social media content for events, workshops, and technical sessions
- Designed event certificates and promotional materials to enhance branding
- Coordinated event schedules and announcements in collaboration with team leads to boost outreach
